

coming HOME

The kitchen is the gathering place in most homes, and quality countertops improve any kitchen.

MGS BY DESIGN

Think about how you use your home. Where do you spend all of your time? Where do friends gather? Where do you eat?

If you're like most families, you'll say the same thing: the kitchen.

Kitchens are the control center of the home. It's where mom directs carpools, packs backpacks and comforts children.

It's no wonder that families are looking to invest in having the best materials in their kitchen.

A lot has been made of a slowing economy and troubled new housing market. What comes from that, however, is an emphasis on taking care of what you have, investing in your current home and taking money you might have saved and use it for improvements that invite visitors and increase your quality of living.

That's where MGS by Design, a division of Marble & Granite Solutions in Orem, comes in. MGS by Design offers top-quality products, service and affordability in countertops that make any

kitchen become a showcase of beauty and function.

But why should you look at MGS by Design to improve your kitchen or bathroom? Here are three reasons.

1. GRANITE AND QUARTZ ARE THE BEST AROUND. *Consumer Reports* recently listed these two materials as the best countertop materials on the market based on function, use and price.

Granite and quartz are perfect for the bathroom ...

... or the kitchen.

Throw in the impeccable look and uniqueness of granite and the choice is easy.

Imagine not needing a cutting board or worrying about hot pots scalding your counters. Then imagine this with gorgeous looks and an easy-to-clean surface. That's what MGS offers.

2. QUALITY OF PRODUCT AND SERVICE.

MGS by Design offers the finest in granite and quartz. Not all granite and installation are the same. MGS by Design's staff is knowledgeable and understands the benefits of each unique surface.

MGS trusts its surfaces and work so much it offers a 25-year warranty. Name another part of your home with that type of warranty. You can't.

3. MGS BRINGS CONTINUITY.

The housing boom brought with it many surfacing companies that lacked professionalism, sound business plans and quality product. The lull in the market has driven them out. MGS by Design does things the right way. Their professional salespeople make your ideas a reality and then the proven processes do the rest. MGS by Design can offer a 25-year warranty because the company has been set up to be around in 25 years.

Remember beautiful stone makes a beautiful home.

See the quality of MGS by Design by visiting the company's showroom or by visiting www.mgsbydesign.com.

MGS by Design understands the importance of good craftsmanship and customer service, offering a 25-year warranty on its countertops.
